

HOW TO SET UP EMAIL (IPHONE)

AN EASY TO FOLLOW GUIDE

Step 1

To start you'll need to go to settings on your iPhone and click on 'Accounts and passwords'

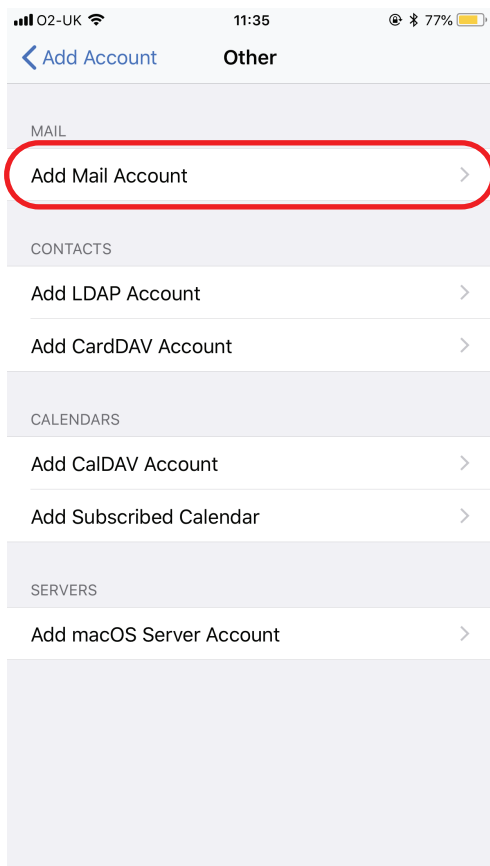

Step 2

Once you've gone into accounts and passwords you'll need to click on add account.

Step 3

The next step will be picking the account you want to set up with, click other.

Step 4

You need to click 'Add mail account' to fill in your details and get your account set up.

Step 7

Next, enter your mail server details. You will need to add incoming and outgoing mail settings in order for it to work correctly.

The column "Host Name" is always:
mail.enterthewifi.com

The column "Username" must be:
your full email address

The column "Password" must be:
your password

Once you have completed all of the columns, you must click "Save" located at the top right of the screen.

Step 8

Now you will see this screen, if not, go to "Settings > Mail" locate the account and click on it to bring this screen up.

Click on the bottom column "SMTP" for more options.

Step 9

Ensure "mail.enterthewifi.com" is your primary server and then click on it to bring up further options for Step 10.

Step 10

The column "Host Name" is always: **mail.enterthewifi.com**

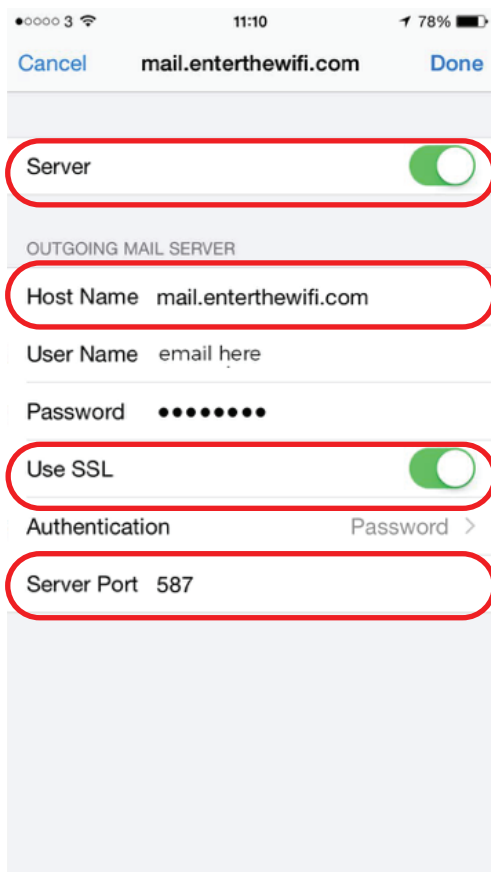

The column "Username" must be: **your full email address**

The column "Password" must be: **your password**

Turn on SSL

Authentication must be set to **password**

Server port must be: **587**.

Step 11

Now go back to the same screen as Step 4 and scroll down to and click on “Advanced”.
